Dimeo Construction Company is awarded Southern Connecticut State University – New Central Plant & Campus Wide Distribution System

New Haven, CT – Dimeo Construction Company was recently awarded the Southern Connecticut State University – New Central Plant & Campus Wide Distribution System. The current energy center, now near the middle of campus, will be moved to a new location behind Moore Fieldhouse. The center has been the main source of heat and electricity distribution on campus for many years. However, upgraded equipment and more capacity are now needed to support campus expansion.

Key features include: New boiler; new high-temperature hot water system throughout campus; new electrical distribution system throughout campus; emergency power for all residential buildings on campus; conduits for future telecommunications systems.

Dimeo Construction Company is a New England-based firm with offices in Providence, RI, New Haven, CT, and Westwood, MA. Founded in 1930, Dimeo has provided over 70 years of construction management, general contracting, and design/build services to a broad range of clients including educational, healthcare, R&D, corporate, retail, and manufacturing industries. Additional information about Dimeo can be found at www.dimeo.com.
